

Invent 365 Program

Your journey to the cloud – and across it – will take time, resources, and buy-in from every level of your business. To create an effective plan, take advantage of a low-cost assessment led by certified experts to define the value of digital transformation to your organization and fully realize the benefits of a Microsoft 365 subscription.

Explore Microsoft's Pillars of Digital Transformation

Engaging
Customers

Improving
Products

Optimizing
Operations

Empowering
Employees

This three-day program allows you and your stakeholders to understand the capabilities of Microsoft 365 services and applications, assess your technical and cultural environment, and gather pragmatic recommendations to help you get the most out of the core productivity and collaboration tools.
